Experience

Career

Front-end Developer

Outofbox Advertising, Bangalore • Full time
Nov 2022 - Jan 2024

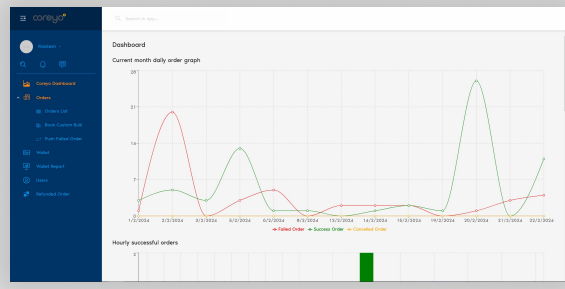

During my work at Outofbox, a service-based company, I dedicated 1.3 years working and refining my skills as a front-end dev, Throughout these endeavors, I utilized a range of technologies, including Tailwind CSS, Next JS, React JS, Typescript, Figma, Expo and worked on different projects catering to external clients, and internal projects led by Outofbox provided me with great insights into various industries, technologies and business domains.

UI/UX Engineer

Freelance • Full time
July 2022 - Sep 2022

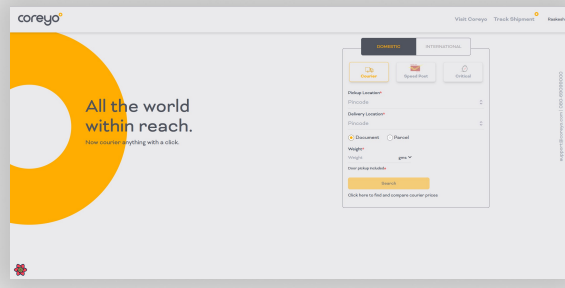

During this time, I contributed to the development of an full stack e-commerce platform tailored for a local clothing shop. Employing Next.js, Sanity CMS, and Redux Toolkit, I crafted a site designed for smooth navigation and accessibility across all devices. Through integration with Stripe, secure payment transactions were facilitated, enhancing the shopping experience for users.

Projects

Coreyo

Coreyo Control Dashboard: Created various pages and integrated the required APIs for the dashboard to control, filter and track all of Coreyo user's and business partner's orders, bulk orders, refunds and wallets etc. Used TypeScript, React, TailwindCSS.
